CIRCULAR

All III B. Tech IT students are hereby informed that Innovation Incubation and Entrepreneurship Cell is conducting a guest lecture on Building the Future: Entrepreneurship for Engineers, 26 August 2023. The awareness program is scheduled between 10:00-12:15 Hrs. All students are instructed to attend this program.

The schedule of the program is as follows:

Year and Branch	Name of the Speaker and Designation	Date and Time (Hrs)	Venue
1	2	3	4
III IT A&B	Srujana Raghupatruni, Cellerite systems	26 August 2023 10:00 to 12:15	Seminar Hall WB-401

Note:

- 1) The faculty who are handling III IT A&B, should mark the attendance as per the timetable on these respective sessions.
- 2) All the teaching and non-teaching faculty who do not have class work are requested to attend the session of this program.

Report on guest lecture-Building the Future: Entrepreneurship for Engineers

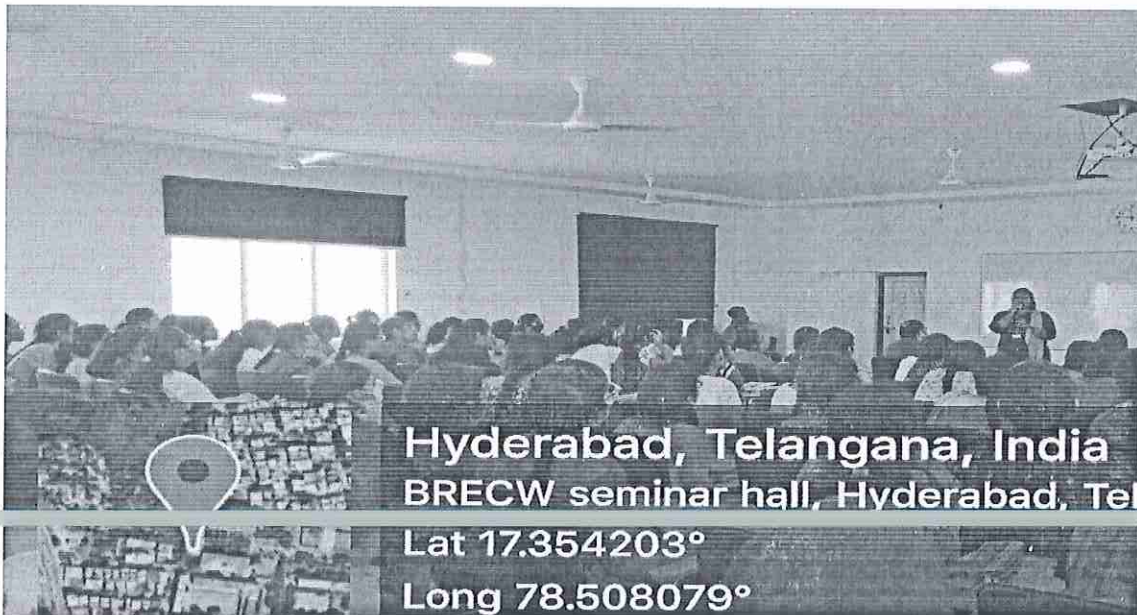

The Innovation, Incubation and Entrepreneurship (IIE) Cell of Bhoj Reddy Engineering College for Women organized a guest lecture titled "Building the Future: Entrepreneurship for Engineers" on 26th August 2023 at the college seminar hall WB-401. The event was coordinated by Dr. Samit Kumar Singh, Coordinator, IIE Cell and faculty incharges and was specially organized for III B.Tech IT students.

The lecture was delivered by Ms. Srujana Raghupatruni from Cellerite Systems, who shared her valuable insights into the entrepreneurial world and inspired students to explore innovation and creativity as pathways for professional growth.

The main objective of the program was to create awareness among engineering students about the vast opportunities available in the field of entrepreneurship and to motivate them to become job creators rather than job seekers.

The session began at 10:00 AM and continued till 12:15 PM, during which Ms. Srujana discussed the importance of innovation, risk-taking, and idea validation in establishing successful startups. She also emphasized the significance of problem identification, design thinking, and the role of technology in driving business success. Through her engaging talk, she shared real-time experiences from her work at Cellerite Systems and discussed various startup success stories to inspire students.

The lecture was highly interactive, allowing students to ask questions related to funding opportunities, incubation support, and challenges faced by young entrepreneurs. Students actively participated and expressed great enthusiasm to learn more about the startup ecosystem and how they could contribute innovative solutions to real-world problems.

The faculty members and staff who attended also appreciated the session for its practical insights and relevance to the current technological landscape.

Overall, the event was a great success and fulfilled its objective of motivating students toward innovation and entrepreneurship. It not only provided awareness but also encouraged students to think independently and pursue their ideas with confidence. The IIE Cell expressed its commitment to conducting more such programs and workshops in the future to nurture entrepreneurial skills among students and strengthen the innovation culture on campus.
